Freightliner Chassis Cabs Recalled for Brake Light Issue ...

I used Freightliner Servicelink to look at the chassis controller but found using DDDL8 much easier. There is no way to activate the input from the brake switch circuit but I can activate the output and turn on each brake light individually. The brake switch input into the chassis control always says the brake pedal is released even while ...

2012 Freightliner M2. ISC 2250 Customer complaint about engine brake not working all the time. I don't have full schematics showing plug connections etc but from what I've found, the engine brake switch on the dash is center off. Down is low and up is high. Switch works off ground circuits and has a light in the switch to say that it is on.
