are finished, ask your TA to check your labeling. Before leaving the station, remove all the labels you have placed on the model.

2.3: Lab Activities - Medicine LibreTexts

The Human Skeleton can be divided up into two parts, the axial Skeleton, and the appendicular skeleton. The central part of the body contains the axial skeleton, and the bones lying along a central axis of the body are the appendicular skeleton. Axial Skeleton The axial skeleton contains 80 bones. 29 bones in the head [...]
