Do Apes Read Minds Toward

Do apes read minds? In this thought-provoking book, Kristin Andrews offers much more than an answer to the title question. Her critique of pure mind reading leads to a richer account of the various emotional and cognitive mechanisms that chimpanzees and humans use to form social bonds and coordinate behavior with their own kind.

A folk psychologist is someone who has this “theory of mind”. In her new book, *Do Apes Read Minds?: Toward a New Folk Psychology* (MIT Press, 2012), Kristin Andrews, associate professor of philosophy at York University in Toronto, argues that the standard view is far too narrow a construal of what’s going on. It leaves out a wide variety of other mechanisms we use to understand the mental lives of others, and a wide variety of other reasons we have for engaging in this social competence.
