Segmentation and variables of the display plane. Modes of correspondence Lecture 3: Text and gesture interaction. Evolution of interaction hardware. Measurement

## **Human Computer Interaction - Lecture Notes**

Human-computer interaction (HCI) is the study and the practice of usability. Its about understanding and creating software and other technology that people will want to use, will be able to use, and will find effective when used. As its name implies, HCI consists of three parts: the user, the computer itself, and the ways they work together.
