Nurse Practitioner

Clinical Guidelines

“When a nurse practitioner sees a patient, they don't see a medical diagnosis or a procedure. They see the whole patient, to include the physical, the mental, the emotional and the social, and they bring it in all together, and truly treat the patient.”

—Brandon L., MSN, FNP-C

Standards of Practice for Nurse Practitioners

If a nurse practitioner really understands the business of health care—the economics of health care—they really can make a bigger impact on patient care. Barbara P., MN, GNP-BC, FNP-BC, FAANP, Missouri,
