## **Economics - CliffsNotes Study Guides**

Although boring, the material is presented quite well. However, the text won't be of much help unless you have a good economics professor to help you out with some of the material. I don't know why I bought this book, we never used it in class. This book isn't the best source from which to learn economics.

Economics is divided into two general categories: microeconomics and macroeconomics. One looks at the individual markets while the other looks at an entire economy. From there, we can narrow economics into a number of subfields of study. These include econometrics, economic development, agricultural economics, urban economics, and much more.
